<u>OKLAHOMA GAS AND ELECTRIC COMPANY</u>	
Name of Company	
Kind of Service: <u>Electric</u>	Class of Service: <u>All</u>
Part I. Rate Schedule No. <u>GS-VPP</u>	
Title: <u>General Service Variable Peak Pricing Rate</u>	

PSC File Mark Only

EFFECTIVE IN: All territory served.

AVAILABILITY: Alternating current for use other than in a residential dwelling unit. Service will be rendered at one location at one voltage.

No resale, breakdown, auxiliary or supplementary service permitted. Where commercial and residential service area served through one meter, this General Service Variable Peak Pricing Rate shall apply to the entire load.

The application of this rate schedule is limited to customers with annual kWh consumed of less than 140,000 kWh or the Maximum Demand during the 12 months ending with the current month was less than 30 kW. The consumer's maximum demand shall be the maximum rate at which energy is used for any period of 15 consecutive minutes of the month for which the bill is rendered as shown by the Company's demand meter.

RATE:

ALL SERVICE LEVELS (Service Levels 2-5):

Customer Charge: \$25.00 per month.

Energy Charge:

Summer Season:

On-Peak Hours: The Day-Ahead Prices for Variable Peak Pricing (DAP_{VPP}) as determined based on the average of the Day-Ahead Prices for On-Peak Hours (DAP_{OPH}) and communicated to the customer by 5:00 PM on the day prior to the applicable day. On-Peak Hours are from June 1 through September 30, from 2:00 p.m. until 7:00 p.m., local time, excluding Saturdays, Sundays, Independence Day (as observed) and Labor Day.

Off-Peak Hours: 2.10¢ per kWh. All hours not defined as On-Peak.

Winter Season:

All kWh per month: 2.10¢ per kWh.

Name of Company

Kind of Service: Electric Class of Service: All**Part I. Rate Schedule No. GS-VPP**Title: General Service Variable Peak Pricing Rate

PSC File Mark Only

DEFINITION OF SEASONS:Summer Season: The five OG&E Revenue Months of June through October.Winter Season: The seven OG&E Revenue Months of November through May.

DETERMINATION OF ON-PEAK HOURS PRICE: By 5:00 PM on the day prior to each day containing on-peak hours, the Company will issue a price notification to customers containing the prices effective during the next day's on-peak period. Receipt of the price notification is the customer's responsibility. The price is determined based on the Company's day-ahead price calculations as set forth in the DAP Tariff excluding the marginal energy cost component of the DAP hourly price.

If $DAP_{OPH-SL5} \leq 0.84\text{¢/kWh}$,
Then $DAP_{VPP} = 2.10\text{¢ /kWh}$ (The Low Peak kWh Price) + ECR_{off}

If $DAP_{OPH-SL5} > 0.84\text{¢/kWh}$ and $DAP_{OPH-SL5} \leq 3.30\text{¢/kWh}$,
Then $DAP_{VPP} = 7.80\text{¢/kWh}$ (The Standard Peak kWh Price) + ECR_{off}

If $DAP_{OPH-SL5} > 3.30\text{¢/kWh}$ and $DAP_{OPH-SL5} \leq 16.00\text{¢/kWh}$,
Then $DAP_{VPP} = 18.50\text{¢/kWh}$ (The High Peak kWh Price) + ECR_{on}

If $DAP_{OPH-SL5} > 16.00\text{¢/kWh}$,
Then $DAP_{VPP} = 37.00\text{¢/kWh}$ (The Critical Peak kWh Price) + ECR_{on}

The DAP price ranges (or bands) shown above for the low, standard, high, and critical on-peak energy charges will be reviewed by the Company annually for the next peak season. If the DAP price bands require adjustment, the Company will submit the price band changes to the PSC staff for review by April 1st. The changes will be implemented beginning with the June revenue month. The expectation is that there would be 10 Low price days, 30 Standard price days, 36 High price days, and 10 Critical price days in a typical year.

SERVICE LEVELS: For purposes of this rate, the following shall apply:

Distribution Service: (Service Level 2, 3 and 4) shall mean service at any nominal standard voltage of the Company between 2,000 volts and 50 kV, both inclusive, where service is rendered through a direct tap to a Company's distribution line or through a Company numbered substation.

Secondary Service: (Service Level 5) shall mean service at any nominal standard voltage of the Company less than 2,000 volts or at voltages from 2 kV to 50 kV where service is rendered through a Company owned line transformer

Metering Adjustment: If the Company chooses to install its metering equipment on the load side of the customer's transformers, the kWh billed shall be increased by the amount of the transformer losses calculated as follows:

Service Level 3: 0.60 percent of the total kVA rating of the customer's transformers multiplied by 730 hours.

APPLICATION OF ENERGY COST RECOVERY (ECR): The ECR_{on} and ECR_{off} as defined in the ECR rider shall apply to the energy components within this tariff as follows: The ECR_{on} or ECR_{off} shall apply to all On-Peak kWh sales as defined in the Determination of On-Peak Hours Price section of this tariff; and, the ECR_{off} shall apply to all Off-Peak and Winter Season kWh sales.

MINIMUM BILL: The minimum monthly bill shall be the Customer Charge. The Company shall specify a larger minimum monthly bill, calculated in accordance with the Company's Allowable Expenditure Formula in its Terms and Conditions of Service on file with and approved by the Commission, when necessary to justify the investment required to provide service.

RIDERS: Applicable Riders which adjust this Rate Schedule are listed in Rate Schedule No. RSR, Tables of Riders Applicable to Rate Schedules.

BEST BILL PROVISION: At the end of the initial subscription term, the customer’s billing will be compared to the tariff under which the customer was previously receiving service prior to subscribing to the GS-VPP tariff, using actual usage for the entire period. If the amount actually paid is higher than what the customer would have paid under the prior tariff, the customer will receive a credit on their bill equal to the difference between the amount actually paid and the amount that would have been paid under the prior tariff. If the customer is subscribing to the GS-VPP tariff as part of a new service subscription then the applicable comparison tariff shall be the GS-1 tariff. The Best Bill Provision will only be applied after the first full year of subscription to the tariff and will not be available in ensuing years.

In accordance with the settlement agreement in Docket No. 16-052-U, the Best Bill provision will again be provided (restart, for a term of one year), for all subscribers to the GS-VPP tariff as of the implementation date of new rates approved in Docket No. 16-052-U. In the event that OG&E opts to adjust the DAP price bands of this tariff, as defined in the “DETERMINATION OF ON-PEAK HOURS PRICE” section of this tariff, outside of a general rate case proceeding, the Best Bill provision will again restart, for a term of one year, for all subscribers to the GS-VPP tariff. The Best Bill comparison tariff will continue to be the tariff to which the customer was previously subscribed prior to subscribing to the GS-VPP tariff. If the customer subscribed to the GS-VPP tariff as part of a new service subscription then the applicable comparison tariff shall be the GS-1 tariff.

TERM AND SERVICE TERMINATION: This is an optional tariff and the initial enrollment term is for one year. After the initial subscription term, a customer will automatically continue service under this tariff until the customer selects another tariff by giving 30 day notice to the Company. If the thirtieth day of the notice period does not fall on the last day of the billing month, service will continue under this tariff through the next billing period. If a customer terminates service under this tariff, the customer will not be eligible to receive service under this tariff for a period of twelve (12) revenue months from the termination date.

The Company may require a contract for a year or longer, subject also to special minimum guarantees, which may be necessary in cases warranted by special circumstances or unusually large investments by the Company. Such special minimum guarantees shall be calculated in accordance with the Company’s Allowable Expenditure Formula in its Terms and Conditions of Service filed with and approved by the Commission.

Customers electing the General Service Variable Peak Pricing rate shall remain on that rate for at least one year unless demonstrating a permanent change in electric consumption, notifying the Company of such change and requesting transfer to another applicable tariff.
