RP - The risk factor percentage is used to compensate OG&E Electric Services for the incremental risk cost of offering the Guaranteed Flat Bill service. The risk factor percentage will be capped at a maximum value of 10%, but may be set at a value less than the capped amount.

FORMULA:

$$\text{Monthly Guaranteed Flat Bill} = \frac{\sum_{m=January}^{December} \{ [Q_m(1 + QF)] \times P_m \} \times (1 + RP)}{12} + BC$$

WINTER EVENT SECURITIZATION MECHANISM: The WES mechanism will be applied as an amount over and above the GFB offer with the following exception: any customer who was subscribed to GFB during the February 2021 Winter Weather Event will not be assessed the WES mechanism charge. However, any customer who was subscribed to R-GFB during the February 2021 Winter Event and then later unsubscribes from the program will then no longer be exempted from WES charges, even if they return to the R-GFB rate.

LATE PAYMENT CHARGE: A late payment charge in an amount equal to 1.5 percent of the total balance for services and charges remaining unpaid on the due date stated on the bill shall be added to the amount due. The due date as stated on the bill shall be 20 days after the bill is issued.

MINIMUM BILL: The minimum monthly bill shall be the monthly GFB amount as computed under the above schedule, plus any applicable riders, fees and taxes.

FRANCHISE PAYMENT: The above stated rates do not include any amount for franchise payments levied upon the Company by a municipality.

When a municipality, by a franchise or other ordinance approved by the qualified electors of the municipality, levies or imposes upon the Company franchise payments or fees (based upon a percent of gross revenues) to be paid by the Company to the municipality, such franchise payment will be added as a percentage of charges for electric service to the bills of all customers receiving service from the Company within the corporate limits of the municipality exacting said payment.
