

PROJECT APPLICATION FORM

Oklahoma Gas & Electric is proud to offer the Commercial Energy Efficiency Program (herein referred to as "program") for the purposes of improving the energy efficiency of commercial customers located within its Arkansas service territory. OG&E has contracted with CLEARResult to implement the program.

_____, (herein referred to as "Customer") recognizes that it is a willing participant of the program designed to help reduce energy bills for their facilities, reducing operating costs and improving the usability and comfort of their facilities. This Project Application reflects the binding commitment between your organization and the program and details the commitments of each party in order to improve energy efficiency in your facilities. The execution of this agreement reserves incentive funds for the project detailed herein. Funds are reserved for 90 calendar days. Projects must be completed and submitted no later than December 15th of the current program year.

To participate in the Program, you understand and agree to the following terms:

1. Only project sites served by OG&E are eligible for inclusion on this application.
2. Customer acknowledges that the appropriate Program Manual may be made available and that they will abide by the terms and processes set forth in the Program Manual.
3. Customer will identify a contact person to work with the program throughout the term of this agreement. He or she will work with the program to identify, assess, and implement cost-effective energy efficiency measures.
4. Customer will provide access to facilities for the purposes of pre-inspection and post-inspection for the purpose of energy savings verification.
 - a. For retrofit projects, a pre-installation inspection must pass before any installation work has begun.
 - b. For new construction projects, Customers must submit construction drawings or similar (in electronic, PDF file format) to CLEARResult for review.
5. The program will reserve incentive funds for eligible energy-saving projects and will pay the Customer monetary incentives based on projects completed within the program year. Approval of Project

Application forms and resulting reservations of incentive funds are solely within the discretion of the program. Incentive funds estimated in this form are not officially reserved until the program has approved them and notified Customer. Funds are reserved for 90 calendar days. After 90 calendar days, the funds reserved for this project may be redistributed to other projects. A request to waive the 90 calendar day requirement must be submitted in writing to CLEARResult. OG&E may review waiver requests and grant a waiver based on extenuating circumstances.

6. Customer will make its best effort to complete and submit relevant Project Application forms, including necessary supporting documentation, in a timely manner. The project application process is required in order to reserve financial incentives for a project.
7. Customer will allow the program to use Customer's name to promote enrollment to entities, including the general public, potential program participants, utilities, as well as federal, state, or local entities.
8. Customer acknowledges that, as part of its participation in the program, it will maintain eligibility to receive program services and incentives from the date of this Participation Agreement until December 15th of the current program year.
9. Customer agrees to submit to CLEARResult a copy of the original invoice for equipment cost, labor, and other costs associated with the project.
10. If Customer uses internal labor and is therefore not invoiced for labor, Customer will submit to CLEARResult a copy of the equipment invoice and an estimate of internal labor hours spent.
11. The incentive funds offered under the program are limited to a program budget. If the program's budget is fully reserved, Project Application forms will be placed on a waitlist. When/if additional budget becomes available, waitlisted forms will be reviewed based on the date of receipt by CLEARResult.
12. The program is not under any obligation to provide Customer with more incentives than the amount reserved by the Project Application form for any project, even if Customer achieves greater energy savings by the project than what were estimated. However, if budget is available when a project achieves greater energy savings than estimated, the program has the option to pay Customer more than the amount reserved, up to the incentive calculated by the achieved energy savings.

ACCEPTANCE OF AGREEMENT

By signing below, your organization accepts this agreement with the Commercial & Industrial Program sponsored by OG&E. This agreement should be signed by your organization's owner, facilities manager, energy director, or other representative authorized to enter into said agreement.

INCENTIVE AND SAVINGS INFORMATION*

Measure Description	Estimated Savings		Incentive Rate \$/kWh	Estimated Incentive
	kW	kWh		
Estimated Totals				

*The amount listed as the Total Estimated Incentive is based on estimated kWh savings. The actual incentive amount will be based on verified kWh savings.

PROJECT COMPLETION PROCESS

1. PRE-INSTALLATION INSPECTION

A CLEAResult representative conducts a pre-inspection to verify existing conditions and equipment.

2. PROJECT APPLICATION

The Customer submits a Project Application that outlines the final project specifications, estimated savings, and incentive reservation amount. A CLEAResult representative verifies the final project is eligible for incentives and determines the Measurement and Verification (EM&V) requirements.

3. INSTALLATION

The Customer selects a contractor and installs the eligible measures.

4. POST-INSTALLATION INSPECTION

A CLEAResult representative conducts the necessary post-inspections to verify the upgrades.

5. MEASUREMENT & VERIFICATION (M&V)

A CLEAResult representative oversees/conducts any necessary EM&V. If using the Deemed Savings method, the representative will calculate the final savings based on the post-installation inspection.

6. PROJECT CLOSE OUT

A CLEAResult representative submits the final project documentation to OG&E for initiation of the incentive payment process.

Customer receives incentive payment within 2-4 weeks.

Note: A CLEAResult representative is available to complete a no-cost Walk-through Assessment to aid the Customer in identifying viable energy saving projects.

ENROLLMENT INSTRUCTIONS

Step 1: Complete this Project Application Form

Step 2: Complete a W-9

Step 3: Mail completed form and W-9 to the following:

CLEAResult
3600 Old Greenwood Road, Suite 1
Ft. Smith, AR 72903
