

OG&E[®] SMARTHOURS[®] PROGRAMS

No Peaking

OUR RATE PLANS OFFER YOU NEW CHOICES AND MORE SAVINGS, AS PART OF A POSITIVE ENERGY FUTURE.

OG&E has several offerings that are specifically designed for commercial and industrial customers. One of these programs may fit your company's needs and help reduce your energy bill. Simply shifting some of your electric use to different times of day can save you money.

Load Reduction Program

Our performance-based Load Reduction program offers financial incentives to commercial and industrial customers that can curtail their electrical load when notified by OG&E. You can subscribe to an amount of demand reduction, tell us how you wish to be notified, and then receive a discount for that promised reduction. Those who reduce their usage during a called event receive a discount on their next electric bill. Last year the average savings for customers enrolled in Load Reduction was over \$34,000.

Time of Use Program

It costs more for electricity in the summer during peak periods of high customer demand, from 2 p.m. to 7 p.m. This program allows you to save when costs are lower, or off peak. Customers who are able to reduce or shift their electricity use to off-peak hours on weekdays, June 1 through September 30, are rewarded with lower bills. It also helps OG&E manage its on-peak demand. Time of Use offers lower prices during off-peak times. So enjoy off-peak pricing from 7 at night until 2 p.m. the next day, plus all weekends and national holidays.

Day Ahead Pricing Program

You can lower your energy costs by shifting your electric use to the times of the day when rates are lower. When higher hourly prices are posted, customers enrolled in Day Ahead Pricing (also known as Real Time Pricing) can reduce their electric use during that time and save money. OG&E will notify you the day before, which allows you to adjust your demand the next day based upon hourly pricing information. If demand reductions are not needed, standard pricing is used.

Business Advantage Group

The Business Advantage Group offers a one-call solution to resolving issues and responding to inquiries from business customers. These agents receive, track and communicate customer issues to the appropriate groups within OG&E and to customers. This dedicated group of representatives will also inform customers of important issues like rate changes, program offerings and other opportunities for customers. The Business Advantage Group can be reached by contacting the call center at **888-988-9747**, Monday-Friday 8 a.m. to 5 p.m., or via email at businessadvantage@oge.com.
