

Available incentives

Planning an energy efficiency project? Get with the program. Our Small Business Efficiency Program offers incentives that can cover up to 90 percent of the cost of a project.

Incentive rates:

- \$0.15/peak kWh reduced on all eligible measures but door gaskets
- \$0.12/peak kWh reduced on refrigerator door gaskets

Eligible projects

Incentives are available for a wide variety of energy efficiency projects, including:

- LED lighting upgrades* (tube lights, bulbs, fixtures)
- Fluorescent lighting upgrades*
- Occupancy sensor installations
- LED exit sign retrofits
- Refrigerator door gaskets
- Refrigerator anti-sweat heater controls
- And more!

*T8 system retrofits must meet the CEE specifications for high-performance or reduced wattage systems to be eligible for incentives. LED retrofits must be either DesignLights Consortium™ approved or ENERGY STAR® certified to receive incentives.

Program benefits

We'll provide everything you need to help your business achieve long-term energy savings, including:

- A no-cost, no-obligation lighting assessment to identify energy-saving opportunities
- Recommendations and estimates for energy savings, project costs and payback periods
- Installation of approved energy-saving equipment by a local, pre-qualified contractor
- Incentives paid directly to the contractor by the program to reduce your upfront cost

Its with programs like this that OG&E is able to keep rates among the lowest in the country.

Eligibility

The program is open to any small commercial customers with a valid OG&E account meter and no more than 150 kW peak demand at any one facility.

Get started today

- 1 Visit oge.com/business to select a participating contractor.
- 2 Contact the contractor you selected and provide your customer account number to verify your eligibility.
- 3 The participating contractor will provide a no-cost walkthrough assessment of your facility.
- 4 Review your energy-saving proposal and sign the customer proposal to approve the recommended measures.
- 5 The participating contractor will install the approved measures within 60 days of receiving the signed agreement.

Typical project scenario

To give you an idea of the potential savings available through the program, below is an example of some commonly proposed retrofits. The projected savings and costs for these retrofits are on the right.

EXISTING INTERIOR LIGHTING:

32 4ft 4-lamp fluorescent fixtures
16 60W incandescent bulbs
2 exit signs

INTERIOR LIGHTING RETROFIT:

32 4ft 36W LED fixtures
16 10W LEDs
2 LED exit signs

Incentives, actual savings and payback periods vary depending on the equipment installed, building characteristics, energy-use patterns, age of existing equipment, location and other parameters specific to the project.
