

# ***Safety Principles***

Safety is a value.

All incidents and injuries  
are preventable.

Working safely is  
a condition of employment.

Management will be  
a safety role model.

OGE will partner with members  
to excel in safety performance.

All members are expected  
to promptly stop and report  
unsafe acts and conditions  
that they observe.

Living safely requires a personal  
decision and commitment  
to be constantly engaged.
