STANDARD PRICING SCHEDULE: FP  
FLEX PRICE

STATE OF OKLAHOMA  
Code No. FP

**SERVICE TERRITORY:** Service under this tariff is available in all territories served by OG&E Electric Services (Company), which are within the Oklahoma Corporation Commission's (Commission) jurisdiction.

**AVAILABILITY:** This tariff is available to PL-1, PL-TOU, PS-LG, PS-LG-TOU, LPL-1, LPL-TOU, and OCT-1 customers who execute a written contract for such service, including customers taking service under the Company's Load Reduction Rider (LR). This tariff is not available to customers taking service under the Company's DAP, BUS, MS, SS, or IS pricing schedules. At the Company's sole election, the Company may allow other non-residential customers to subscribe to this tariff.

The Company's Rules, Regulations, and Conditions of Service and the Commission's Rules and Regulations apply to service provided under this tariff. This tariff is not available for resale, stand-by, breakdown, or auxiliary service.

**SERVICE TYPE:** The Company will provide single or three phase service delivered at approximately 60 hertz. The Company shall determine the appropriate voltage(s) for delivery to the customers' premises.

**SERVICE TERMINATION:** A customer may cancel service under this tariff and return to their standard tariff schedule upon giving 30 days written notice to the Company. If the thirtieth day of the notice period does not fall on the last day of the billing month, service will continue under this schedule through the next billing period. A customer may return to another tariff schedule without penalty, and with the same billing determinants (including elapsed time on the billing demand ratchet) which existed prior to taking service under this tariff. Consumption under this tariff will not affect a customer's billing determinants for other tariff schedules.

If a customer terminates service under this tariff, the customer will not be eligible to receive service under this tariff until the start of the next season, as defined in the Definition of Seasons Section, after the termination.

**FLEX PRICE :** The FP provides customers the opportunity to choose on a seasonal basis between their current standard tariff and FP. Customers, who elect to participate in the FP summer season, as defined in the Definition of Season Section, must notify the Company no later than 45 days before the start of the summer season. The Company will then provide Seasonal Customer Base Line (SCBL) information as defined in the Seasonal Customer Base Line Section. The customer will continue on the FP program for the subsequent season unless they notify the Company prior to the start of the subsequent season. If the customer elects to discontinue participation in the FP program for the next season, the customer will be placed on their prior standard tariff.

The customer's bill under this tariff will consist of two parts: (1) the Standard Bill component and (2) the FP component. The Standard Bill component will be determined by multiplying the SCBL billing determinants by the customer's standard tariff rate(s). The FP component will be the sum over all time-of-use periods of the difference between each hour's actual kilowatt-hour use and the SCBL kilowatt-hour use multiplied by the respective FP.

**PRICE NOTICE:** By a method specified by the Company and by 6:00 p.m. (local time) each day, the Company will make available to FP customers the FP Prices as defined in the FP Pricing Section which shall be effective for the twenty-four hour period from 11:00 p.m. on the current day until 11:00 p.m. the following day. The customer will be responsible for obtaining the necessary equipment to receive FP prices. Except during high-risk-outage periods, the Company may make prices available for Saturday through Monday on the previous Friday. More than day-ahead pricing may also be used for the following holidays: New Year's Day, Martin Luther King Day, Presidents Day, Memorial Day, Independence Day, Labor Day, Veterans' Day, Thanksgiving (Thursday and Friday), and Christmas (including Christmas Eve Day).

The Company may not be able to project prices more than one day in advance, and the Company reserves the right to update prices on a one-day-ahead basis.

If, on certain occasions, a customer is unable to receive the FP prices in the manner specified by the Company, the customer shall inform the Company so that prices may be provided. In the event that the Company is unable to post prices by 7:00 p.m. (local time), the previous day's prices shall apply.

**PRICE REDUCTION SUBSEQUENT TO PRICE NOTIFICATION:** Subsequent to providing time-of-use period prices by 6:00 p.m. of the day before the prices are effective, the Company may decrease its FP prices. The Company shall notify customers of such change in prices as soon as practicable.

**DEFINITION OF SEASONS AND TIME-OF-USE PERIODS:**

**Summer Season:** The five OG&E revenue months of June through October

**Winter Season:** The seven OG&E revenue months of November through May.

**Time-of Use Periods:**

Time-of-Use period 1\* - the 4 hour period ending 3am

Time-of-Use period 2 - the 4 hour period ending 7am

Time-of-Use period 3 - the 4 hour period ending 11am

Time-of-Use period 6 - the 4 hour period ending 11pm

\*The transition between daylight and standard time will affect this period.

**SEASONAL CUSTOMER BASE LINE (SCBL):** The SCBL (specified by OG&E) represents a subscriber's typical or expected electricity consumption level and pattern and includes the customer's monthly maximum demand in kW and hourly energy in kWh for 12 consecutive months. For existing customers, the hourly energy of the SCBL shall be 12 consecutive months of customer-specific, historical, hourly load information adjusted for calendar day-type matching and other special circumstances that may have affected the customer's usage pattern. The 12 monthly maximum demands of the SCBL, adjusted per the Power Factor Clause, shall be the 12 monthly billing determinants used to calculate the customer's Standard Bill.

For new customers and existing customers for which hourly load information is not available, the SCBL shall be 12 consecutive months of hourly load information which best represents a customer's typical or expected electricity consumption level and pattern. Customer's acceptance of the initial SCBL is a precondition for eligibility for this tariff.

The SCBL will convert the hourly loads to an average weekday and weekend daily load broken in to six four hour Time-of-Use Periods, one SCBL for the weekday and one SCBL for the weekend day for all months in the season. This means that the daily weekday load pattern will be the same for all weekdays of a given month and each weekend load pattern will be the same for all weekend days of a given month.

At the Company's sole discretion, customers may be permitted to aggregate multiple accounts, under the same ownership, and the same rate, into a single SCBL. The SCBL includes a table reflecting the summation of the individual account billing demands by month. Where block rates apply, the blocks of the rate shall be multiplied by the number of accounts included in the aggregated SCBL.

While a customer is taking service under this tariff, the Company may adjust the SCBL to reflect permanent substantiated changes in operating conditions. These conditions include, but are not limited to: (1) Permanent reductions in the customer's usage due operational changes, (2) Reductions due to demand-side management investment at the customer facility, (3) Additions or upgrades to the transmission and/or distribution facilities required to serve the customer's load, or (4) other conditions that affect the Company's cost of providing service to the customer.

**STANDARD PRICING SCHEDULE: FP**  
**FLEX PRICE**

**STATE OF OKLAHOMA**  
**Code No. FP**

**FLEX PRICE PRICING:** The prices for FP will be developed by taking the daily prices used with the Company’s Day-Ahead Pricing (DAP) program and convert them into six average time-of-use period prices daily. Prices will be provided by 6:00 p.m. the day before.

**STANDARD BILL:** The Standard Bill is calculated by applying the Otherwise Applicable Rate (OAR), including all applicable riders and surcharges, to the customer’s SCBL billing determinants for the billing period. If base rates, riders, or surcharges are subsequently revised, those changes will be reflected in the customer’s Standard Bill based on their SCBL billing determinants for a given month.

As required by the Company’s Terms and Conditions of Service, customers taking service under this tariff may be required to make a one-time contribution or pay a monthly facilities charge sufficient to cover the cost of any transmission and distribution facilities provided by the Company to accommodate the customer’s load.

**BILL DETERMINATION:** A bill under this tariff is rendered after each monthly billing period and consists of a Standard Bill amount, and a charge (or credit) for incremental (or decremental) energy use based on the difference between a customer’s actual use and the customer’s SCBL in each hour multiplied by the respective Flex Price provided during the billing period. The monthly bill under this tariff is calculated using the following formula:

$$\mathbf{FP\ Bill_{Mo.}} = \mathbf{Standard\ Bill_{Mo.}} + \mathbf{Price_{FP}\ Energy\ Charge}$$

Where:

$$\mathbf{FP\ Bill_{Mo.}} = \text{Customer’s bill for service under this option in a specific billing month}$$

$$\mathbf{Standard\ Bill_{Mo.}} = \text{Customer’s bill for a specific month of use as defined by the SCBL and billed under the OAR, inclusive of all applicable riders exclusive of franchise fees and taxes}$$

$$\mathbf{Price_{FP}\ Energy\ Charge} = \sum [FP \times (Load_{Hr.} - SCBL)]$$

$$\mathbf{\Sigma} = \text{Sum over all time-of-use periods of the monthly billing period}$$

$$\mathbf{Load_{Hr.}} = \text{Customer’s actual kWh use in an hour}$$

$$\mathbf{SCBL} = \text{Seasonal Customer Base Line kWh based on the SCBL time-of-use period (Subject to CO-SUBSCRIPTION of LR tariff for customers who subscribed to both FP and LR tariffs)}$$

STANDARD PRICING SCHEDULE: FP  
FLEX PRICE

STATE OF OKLAHOMA  
Code No. FP

FP = FP price based on the time-of-use period DAP average  
(Subject to CO-SUBSCRIPTION of LR tariff for customers  
who subscribed to both FP and LR tariffs)

Where:

The DAP is determined per the DAP tariff

**POWER FACTOR CLAUSE:** In applying the standard tariff Power Factor Clause for the Standard Bill portion of the monthly bill calculation, the Average Power Factor will be based on total monthly consumption. The customer's standard tariff Power Factor Clause provisions will apply in all other respects.

**CONFIDENTIALITY:** Any customer taking service under this tariff shall not disclose to any person, entity, or organization any information regarding the pricing, including, but not limited to, the hourly prices offered under this tariff, without the prior written consent of the Company. Disclosure of such information, including failure to obtain prior written consent before providing such information to Consultant(s) (individuals or entities providing energy use and purchase analysis assistance to the customer) shall result in a material breach of any agreement between such customer and the Company, for which the Company shall be entitled to recover at law and at equity. Such disclosure shall at the Company's sole option, result in suspension of service under this tariff, with a full reimbursement to the Company by the customer of the difference between the applicable standard tariff rates and the rate(s) provided pursuant to this tariff for all use billed pursuant to this tariff.

**FRANCHISE PAYMENT:** The above stated rates do not include any amount for franchise payments levied upon the Company by a municipality. When a municipality, by a franchise or other ordinance, levies or imposes upon the Company franchise payments or fees (based on a percent of gross revenues) to be paid by the Company to the municipality, such franchise payment will be added as a percentage of charges for electric service to the bills of all customers receiving service from the Company within the corporate limits of the municipality exacting said payment.

**BEST BILL PROVISION:** Customers will be billed on the FP prices each month during the first year of enrollment on this tariff. At the end of each season the customer's billing will be compared to their previous tariff using the actual usage for the season and, if the amount actually paid is higher than what the customer would have paid under their previous tariff, the customer will receive a credit on their bill equal to the difference between the amount actually paid and the amount that would have been paid under their previous tariff. The Best Bill Provision will not be available in the ensuing years.
