

# Power Restoration Tips

Stay alert for hazards after your power is restored. When it's safe, assess damage around your home.

## If you find damage, you may need to make a few calls.

- » For hazards or damage to poles, power lines, electric meters, call [405-272-9741](tel:405-272-9741).
- » For damage to the breakers or breaker box inside your home, or the weatherhead and conduit outside, [call a professional electrician](#).
- » OG&E is not legally responsible for damages caused by natural occurrences like storms or normal equipment failures. However, your homeowner's or renter's insurance may cover these losses. If you need additional assistance, contact our Customer Service department at [405-272-9741](tel:405-272-9741).
