

STAY CONNECTED, GO ONLINE!

With an online OG&E account, the possibilities are endless. You can sign in, anywhere, anytime, to manage your account. Additionally, you can:

- Start, stop or transfer your service in just a few easy steps
- Pay your bill while on-the-go
- Adjust your billing and payment settings such as enrolling in Auto Pay and Paperless Billing
- Report an outage in your area and get personalized outage information while crews work to restore your power
- Request a letter of credit
- Gain a better understanding of exactly what your bill entails each month
- Learn about our money-saving energy efficiency opportunities and sign up on the spot for the program of your choice
- Submit a request for new construction

New features are coming soon that you won't want to miss!
Visit oge.com to create your online account today.

**POSITIVE
ENERGY
TOGETHER[®]**

ELECTRIC VEHICLES fuel up much cheaper than conventional cars, require no oil changes and much less maintenance.

TAKE ADVANTAGE OF THIS FREE \$3,000 VALUE OPPORTUNITY

OG&E continues to offer energy upgrades to qualified residential customers through the Weatherization Program. The program helps improve the comfort of your home and reduce your energy costs. Some of the improvements may include:

- Energy-saving LED light bulbs
- Caulking, air sealing and weather stripping
- Attic insulation

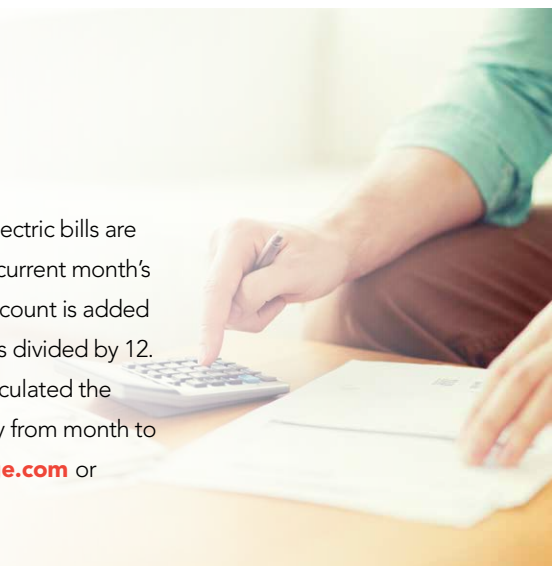

The OG&E Weatherization Program is available to duplexes or single-family homes built prior to 2007. You must also be a current OG&E or AOG residential customer. With approval from the property owner, weatherization services are also available to rental properties if the tenant is eligible. Some restrictions and state mandated guidelines may apply. Contact OG&E at **1-800-272-9741** for more information.

BUDGET PLANNING HELP IS HERE

Know ahead of time what to expect from your monthly electric bill with OG&E's Levelized Billing. It levels out those unusually high bills that occur during months of high electricity use, giving you a more consistent bill each month. Here's how it works:

Your previous 11 months' electric bills are totaled and added to your current month's bill. Any balance on your account is added to that sum. The total sum is divided by 12. Each month, the bill is recalculated the same way and varies slightly from month to month. Sign up today at oge.com or by calling **800-272-9741**.

MORE WAYS TO SAVE

You can save energy and money with these tips:

- Reduce your air conditioner's labor. Place window units on the north or shady side of your residence to avoid overworking the unit in the hot daytime sun.
- Use an attic fan to get rid of the heat build-up in your attic. Heat from your attic eventually finds its way into your home.
- Keep both indoor and outdoor lighting fixtures and light bulbs clean. Dirty fixtures can absorb as much as 50% of the illumination.
- Save energy by air drying your dishes instead of using your dishwasher's drying heater.
