

SCHOOLS AND GOVERNMENT EFFICIENCY PROGRAM

OG&E's Schools and Government Efficiency Program provides a variety of energy-efficiency measures for educational and publicly-funded facilities. We offer a free and easy assessment and will help you identify and install the measures that could bring you the biggest savings.

Lighting Retrofits

Modern, efficient fixtures use less energy while providing high-quality light that is designed to improve the learning environment.

Exit Light Replacements

Replace aging and inefficient incandescent exit lights with energy-saving LED units.

Gym and Multipurpose Room Lighting Replacements

Older gym and multipurpose room lighting can be inefficient as well as unappealing. This retrofit will solve both issues.

PC Power Management

PC power management automatically reduces the power state of PCs and peripheral equipment.

HVAC Replacement

Older HVAC systems can be a major cause of wasted energy. Upgrading is one of the easiest ways to save.
