

# OG&E SCHOOLS & GOVERNMENT EFFICIENCY PROGRAM

## MEASURES SHEET

OG&E's Schools and Government Efficiency Program provides a variety of energy efficiency measures for educational and publicly funded facilities. We'll provide an energy assessment at **no out-of-pocket cost** to you to help you identify and install the measures that could bring you the biggest savings.

### Lighting retrofits

Modern, efficient fixtures use less energy while providing high-quality light that is designed to improve the learning environment.

### Exit light replacements

Replace aging and inefficient incandescent exit lights with energy-saving LED units.

### Gym and multipurpose room lighting replacements

Older gym and multipurpose room lighting can be inefficient as well as unappealing. This retrofit will solve both issues.

### Sports lighting

Retrofitting existing sports lighting with efficient LEDs can greatly reduce energy and maintenance costs.

### HVAC replacement

Older HVAC systems can be a major cause of wasted energy. Upgrading is one of the easiest ways to save.
